

REMARKS

Further to the Notice of Allowability mailed November 14, 2008, the Applicant requests correction of an obvious clerical error in paragraph [0009] of the specification by way of the present amendment. No amendments are made to the claims.

The amendment is needed to correct a clerical error. As the nature of the error would be obvious to the ordinary skilled person, and does not affect the scope of the claims, the proposed amendment does not require additional search or examination. The Applicant submits that the claims remain patentable for the reasons provided in the Examiner's Notice of Allowability. The obvious clerical error was only recently discovered in a review of the application.

This amendment is being filed before the payment of the issue fee.

Respectfully submitted,
Bereskin & Parr
Agent for the Applicant
